PART R × 66
Hex bolt tall

The Making

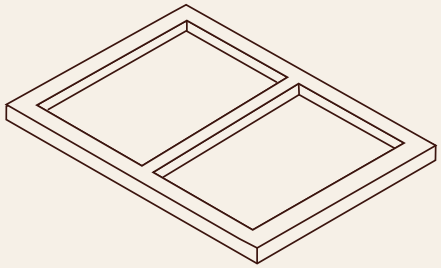

This manual is designed to guide you through the thoughtful assembly of your piece.

Each step has been carefully considered to ensure a seamless experience, allowing every component to come together with clarity and precision.

Scan for support

STEP 1

Start by placing the base frame on the floor.

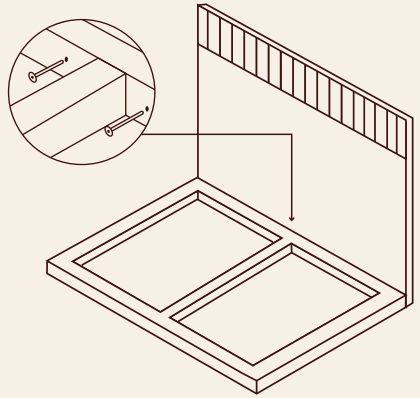

STEP 2

Align the Back panel as shown in the picture.

Use the hex bolts to join the base frame to the back panel

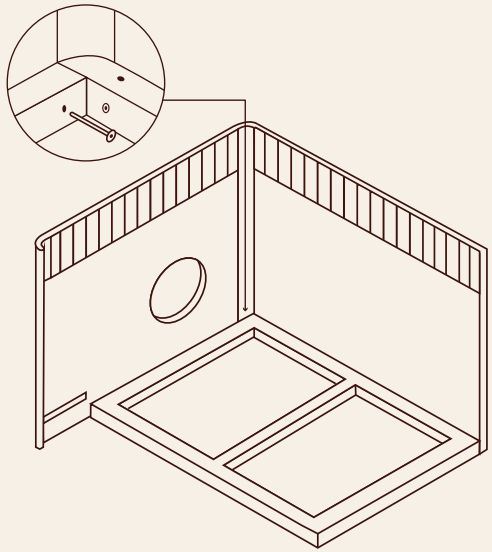

STEP 3

Align the Window Panel as shown with the base frame

Use the hex bolts to join the base frame to the window panel

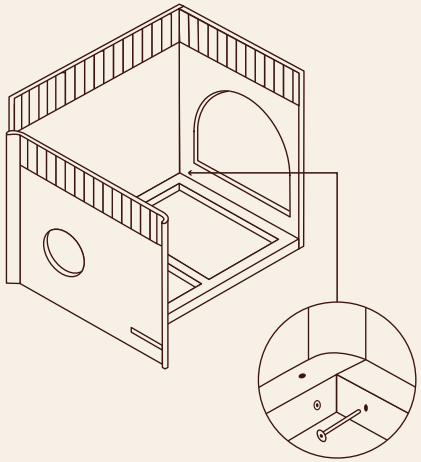

STEP 4

Align the door panel as shown above.

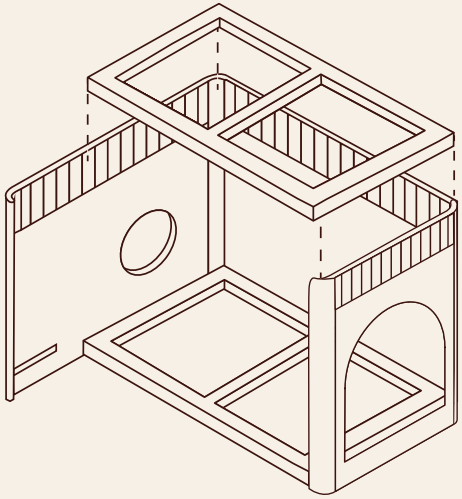

Tighten all the screws to secure the base frame with three panels

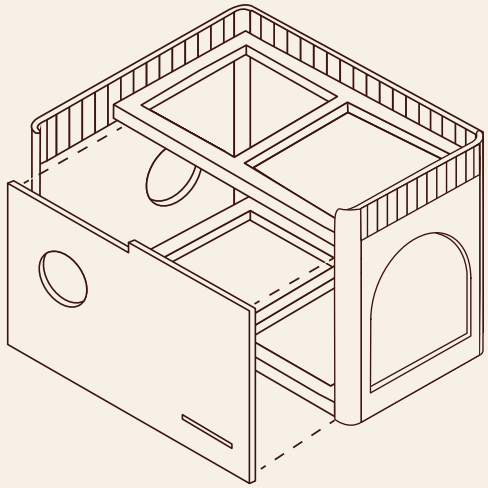

STEP 5

You can take the top frame and secure it the same way with all three panels

STEP 6

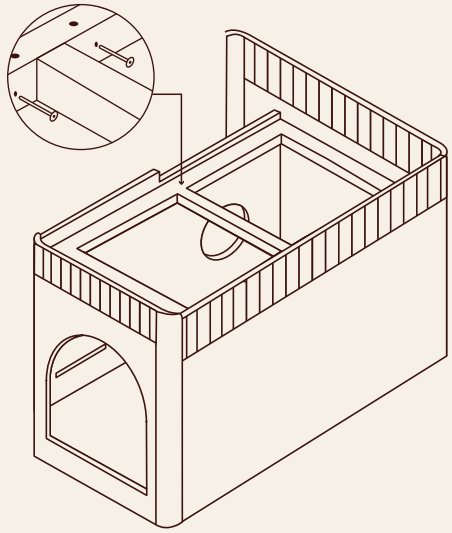

Take the side window panel (PART E) to cover the frame from the remaining side

STEP 7

Secure it with the hex bolts as shown above!

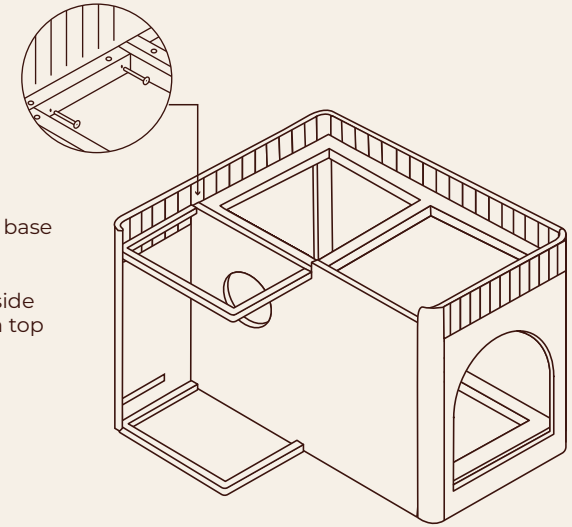

STEP 8

Take the extension of base frames (PART A2)

Align them with the side frame as shown (both top and bottom)

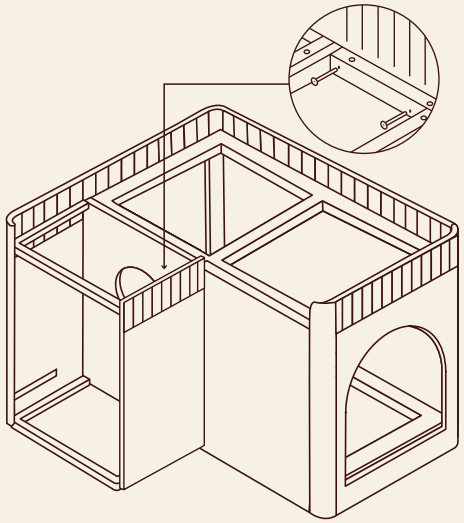

STEP 9

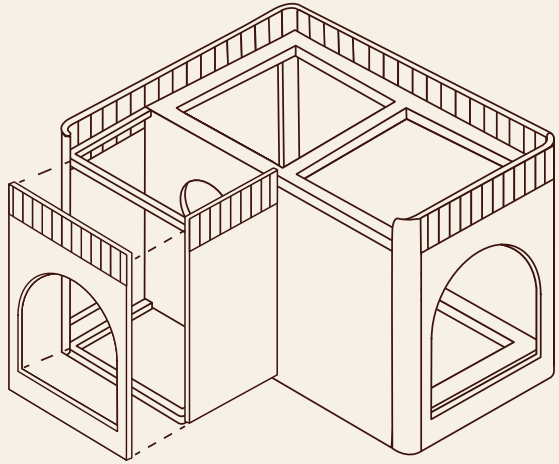

Use the Side panel (Part F) to close the base frame.

Align them with the side frame as shown (both top and bottom)

STEP 10

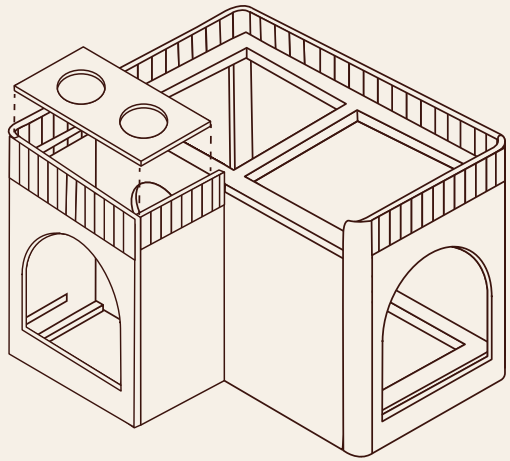

Take the side Arc panel (Part G) to close the base frames from all the sides.

STEP 11

Put the feeder plank as shown above.

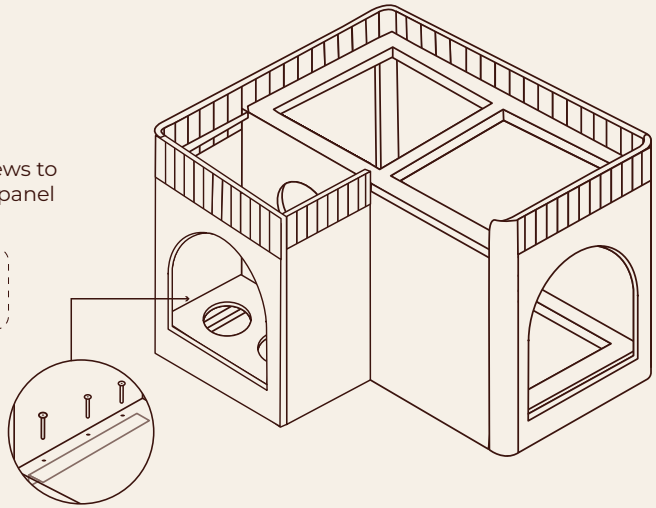

STEP 12

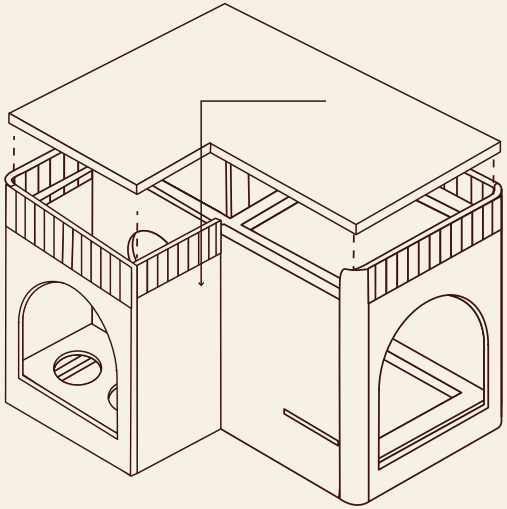

Use small screws to fix the feeder panel as marked.

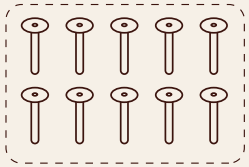

STEP 13

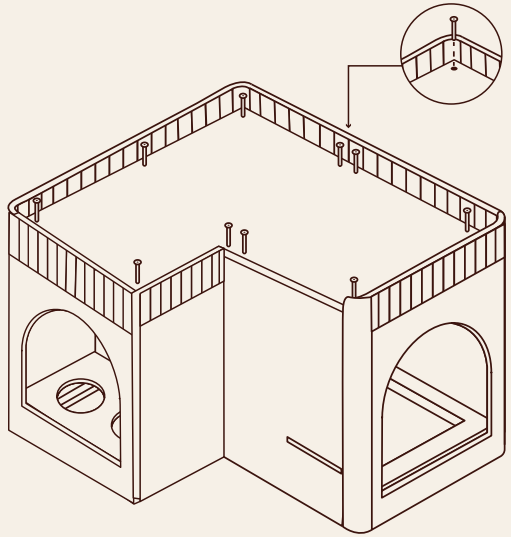

Use the top base panel and bottom place panel respectively and fix them with hex bolts.

STEP 14

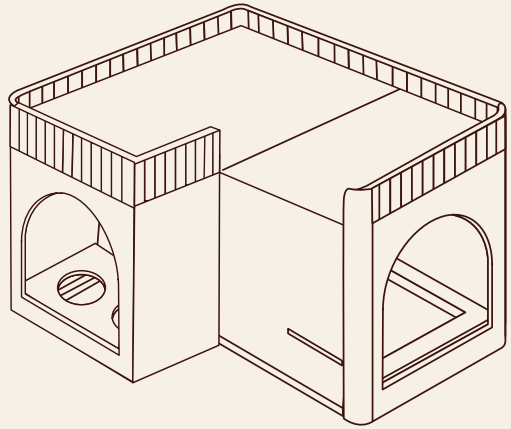

Secure them properly to maintain rigidity all across.

STEP 15

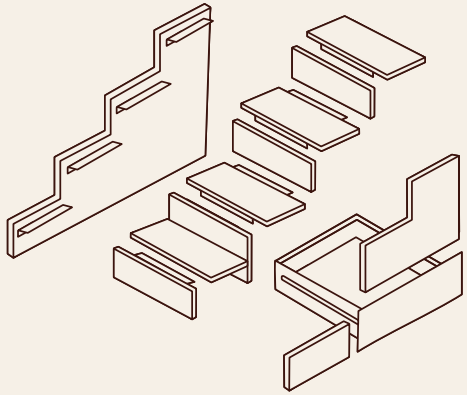

You will have your main body ready.

STEP 16

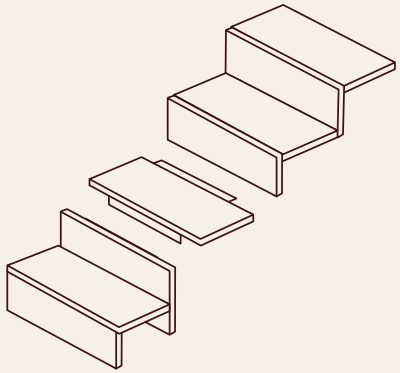

Layout the components of the steps as shown above!

Start by putting the landing panels (part N1) and riser panels (O2) together and fix them with small screws to create a step structure.

STEP 17

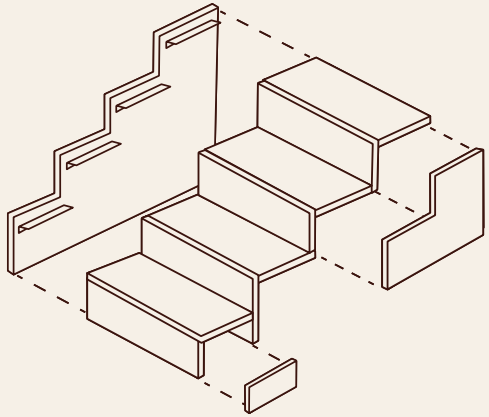

Use Panel O1 (which will have a drawer channel attached) at the bottom as shown.

STEP 18

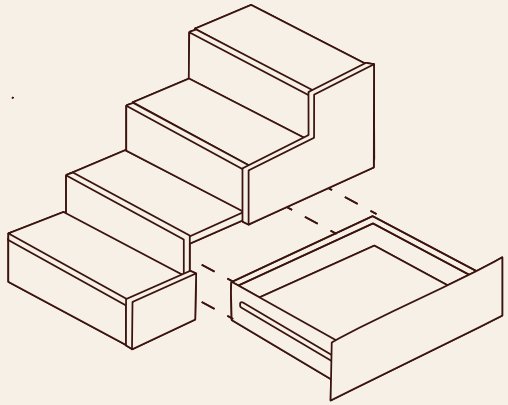

Complete the main structure of the ladder as shown and attach this with the steps side panel (PART K) as shown.

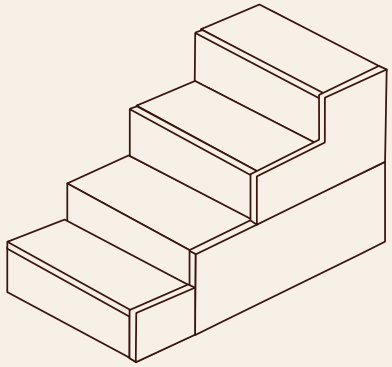

STEP 19

Attach the remaining panels keeping the drawer separate.

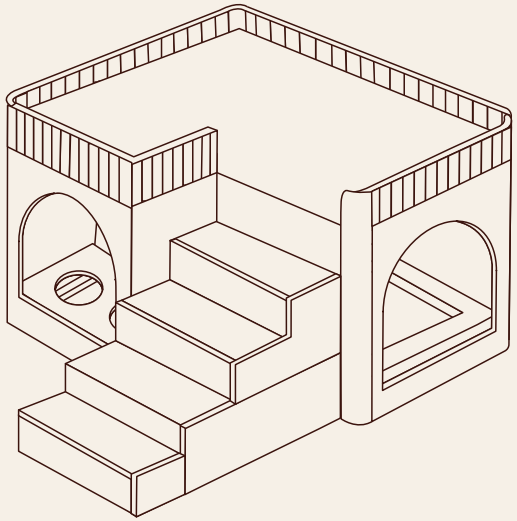

STEP 20

Add the top part of the dowel (PART L1) as shown.

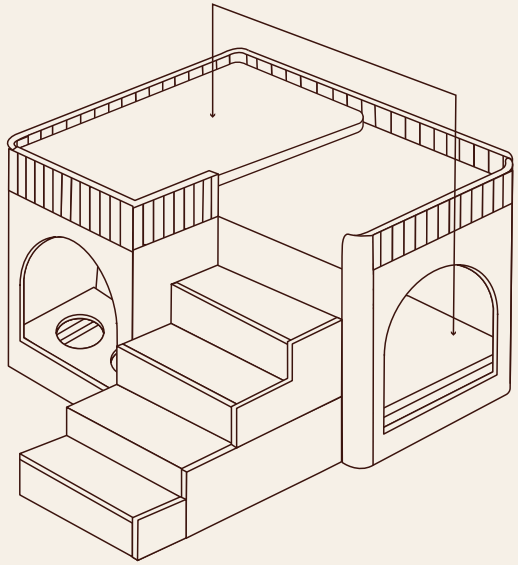

STEP 21

Attach the steps with the main structure by using the small screws.

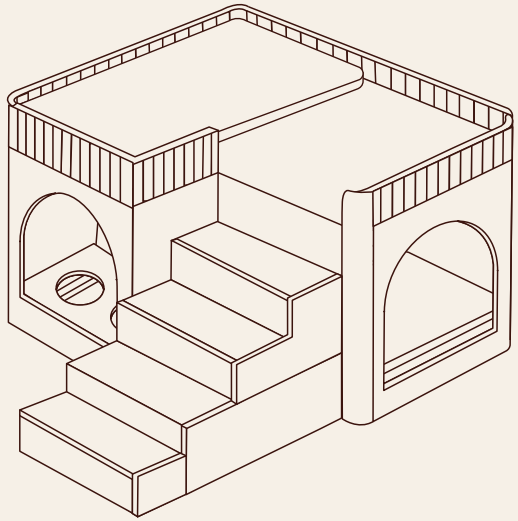

STEP 22

Place the mattress on the hardware below before using it.

Your piece is now complete, ready to be lived with and loved!

CARING FOR THE GROVE

GENERAL MAINTENANCE

Use a soft, dry cloth to regularly dust The Loft. Microfiber cloths work well. For routine cleaning, use a damp cloth followed by a dry cloth to prevent moisture from sitting on the surface. Avoid soaking the wood.

CLEANING SPILLS

Wipe up any spills immediately to prevent staining or damage to the finish. Use a mild soap solution (e.g. diluted dish soap) for tougher spots, followed by wiping with a damp cloth and drying thoroughly.

POLISHING

Given the low gloss finish, frequent polishing isn't necessary. If you do polish, use a product recommended for low-gloss finishes and test it on a small, inconspicuous area first. Avoid using wax, as it can build up and create a dull, cloudy appearance.

ENVIRONMENTAL FACTORS

Keep The Loft indoors, avoiding extremely humid environments. Avoid placing The Loft near heat sources like radiators or fireplaces. Keep The Loft out of direct sunlight to prevent fading or discoloration.

CUSHION CLEANING

TIP 1 Regularly remove and machine wash the outer cover.

TIP 2 Do not wash the interior cushion, simply air it out to keep fresh and spot clean with a damp cloth and mild detergent.

TIP 3 Avoid direct sunlight to preserve the color and material of the cushion.

TIP 4 Immediately wipe spills with a damp cloth, using a mild detergent for stubborn stains.

WASH INSTRUCTIONS

Machine wash cold 85°F/30°C

Tumble dry on low heat

Do not iron

Dry Cleanable
