CARING FOR THE HUSH

GENERAL MAINTENANCE

Use a soft, dry cloth to regularly dust The Hush. Microfiber cloths work well. For routine cleaning, use a damp cloth followed by a dry cloth to prevent moisture from sitting on the surface. Avoid soaking the wood.

CLEANING SPILLS

Wipe up any spills immediately to prevent staining or damage to the finish. Use a mild soap solution (e.g. diluted dish soap) for tougher spots, followed by wiping with a damp cloth and drying thoroughly.

POLISHING

Given the low gloss finish, frequent polishing isn't necessary. If you do polish, use a product recommended for low-gloss finishes and test it on a small, inconspicuous area first. Avoid using wax, as it can build up and create a dull, cloudy appearance.

ENVIRONMENTAL FACTORS

Keep The Hush indoors, avoiding extremely humid environments. Avoid placing The Hush near heat sources like radiators or fireplaces. Keep The Hush out of direct sunlight to prevent fading or discoloration.
